

TekA Step Extra Heavy Duty Mobile Safety Steps 500kg Capacity

The TekA Step Industrial Extra Heavy Duty Warehouse Ladders are fully welded using sturdy 25mm steel tube and plate and are finished in a highly durable powder coat making these steps both robust and attractive. The TekA Step mobile safety steps are Extra Heavy Duty and manufactured from heavy duty steel tube & components, these warehouse steps are sturdy and super stable, giving the user that extra confidence and peace of mind when working at height. The Steel Safety steps have a certified massive safe working load capacity of 500 Kg. A choice of 2 colours are available.

With a range of platform heights and number of treads from 5 to 16, the TekA Step Heavy Duty Mobile Safety Steps are the perfect solution for all construction, retail, commercial, office, warehouse and industrial applications.

A wide range of optional extras to match the warehouse steps with your requirements are available from the drop down boxes such as extra deep platforms. All platform gates, bars and L&R Chains, will add an extra 200mm to the platform depth.

****We can offer a platform height modification if you require a size that is not available as standard on the dropdown list. Please use the dropdown to select the size slightly over your required size (eg. required size 2100mm - choose 2286mm) and add the Platform Height Modification from Optional Extras dropdown then quote the size you require in the notes section on the payment page.**

Standard Platform Size W x D: 559x400mm
